# general information

## highlights

- The main campus of Southwest Missouri State University, founded in 1905, is one of the 13 four-year, public-supported institutions of higher education in Missouri.
- In addition to the main campus at Springfield, there is a two-year branch campus in West Plains and a research campus in Mountain Grove.
- The University was given a regional mission by legislative act in 1919. That mission was expanded in the spring of 1995. The name of the University's governing board was also changed to the Board of Governors, and its composition reflects the change in mission. The most recent statement of mission, approved by the Board of Governors in July 2000, includes a special statewide emphasis on public affairs, as well as future development along five themes:
  1. professional education
  2. health
  3. business and economic development
  4. creative arts
  5. science and the environment

Southwest Missouri State University System

Springfield

West Plains

Mountain Grove

Extended Campus

## System Overview

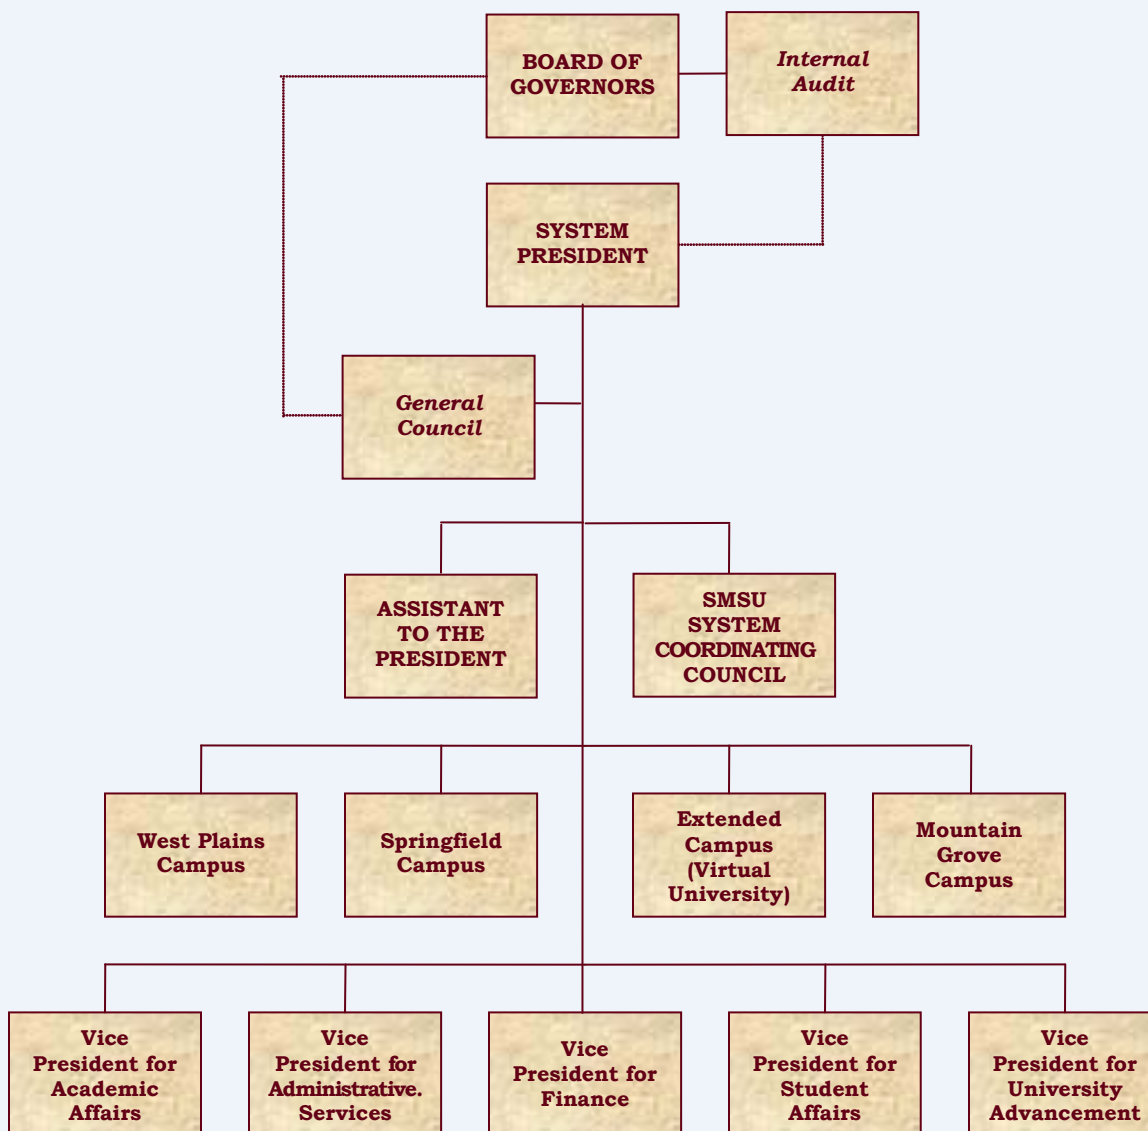

Southwest Missouri State University is a multi-campus system operating under a single Board of Governors. SMSU-Springfield is a selective admissions, graduate level teaching and research institution. SMSU-West Plains is an open admissions campus serving seven counties in south central Missouri. SMSU-Mountain Grove serves Missouri's fruit industry through operation of the State Fruit Experiment Station. The SMSU-Extended Campus provides anytime/anyplace learning opportunities through telecourses, Internet-based instruction, and its interactive video network (BearNet) and subnetworks (GrizzNet and VineNet). In addition, the University operates several special campuses to meet the needs of Missourians and SMSU students. One such campus is the SMSU branch campus at Liaoning Teachers University in Dalian, China. The University also operates the Bull Shoals Field Station near Forsyth, Baker's Acres and Observatory near Marshfield, and the SMSU Graduate Center in Joplin.

System administration and coordination is the responsibility of the SMSU System Coordinating Council, which reports to the Board of Governors through the system president. The Council, composed of representatives from each campus, is responsible for developing business and support systems necessary to ensure that the campuses operate cooperatively, efficiently, economically, and without duplication.

The SMSU System Coordinating Council provides effective administration of the System while requiring minimal administrative overhead. No positions have been or will be added for System purposes.

## University System Organization Chart

The current organizational structure of the Southwest Missouri State University System is portrayed in the diagram above. The system is administered by a System President who reports to the Board of Governors. For the Springfield campus, the five line divisions of Academic Affairs, Administrative Services, Finance, Student Affairs, and University Advancement are each headed by a vice president. Other administrative positions which report directly to the System President are two Assistants to the President, the General Counsel, the Chancellor of the West Plains campus, and the Chancellor of the Mountain Grove Research campus.

## History, Mission, and Accreditation

### University Heritage

The institution that would ultimately be known as Southwest Missouri State University was founded in Springfield in 1905 as the Fourth District Normal School. During its early years, the School's primary purpose was the preparation of teachers for the public school systems in southwest Missouri. The School's first name change came in 1919, when it became the Southwest Missouri State Teachers College, reflecting the institution's regional mission. By the mid-1940s, it had expanded beyond teacher education to include instructional programs in the liberal arts and the sciences; and as a consequence, in 1945, the Missouri Legislature authorized an official name change to Southwest Missouri State College. In the ensuing decades, with the implementation of more programs at the undergraduate level and the development of a graduate education program, the College became an educationally diverse institution. Recognition of its further growth and development resulted in yet another name change in 1972, to that of Southwest Missouri State University (SMSU). Today, SMSU is a multipurpose, metropolitan university providing diverse instructional, research, and service programs.

In 1963, a residence center offering freshman and sophomore level courses was established at West Plains. Now, as a second campus of the University with its own mission, the West Plains campus offers a two-year general education program, which is fully integrated with programs on the main campus, as well as other specialty and skills courses.

The State Fruit Experiment Station, established by a legislative act in 1899, is the oldest identifiable segment of Southwest Missouri State University. Until 1974, it operated as a state agency under a board of trustees appointed by the Governor. As a result of the Omnibus State Reorganization Act of 1974, administrative responsibility for the Station was given to the Board of Regents of the University. In 1994, the Station was assigned departmental status in the College of Natural and Applied Sciences as part of a reorganization of the University. The most recent university mission statement identifies the Station as a separate campus with a research designation.

### University Setting

The main campus of the University is located in Springfield, the third largest population center in Missouri with a metropolitan statistical area population of about 330,000. Supported by an industrial/manufacturing base and an expanding service industry in tourism, the community serves as a regional center for health and medical services for southwest Missouri, northwest Arkansas, southeast Kansas, and northeast Oklahoma. The second academic campus is located 110 miles southeast of Springfield in West Plains. This city of 11,000 serves as a regional hub for a seven-county area of south central Missouri and several adjacent counties in north central Arkansas. The research campus of the University is in Mountain Grove, a city of 4,900, which is approximately halfway between Springfield and West Plains.

The University's primary service region of southwest Missouri has certain distinctive characteristics which influence various activities and programs of the institution. The southwest region, the fastest growing area in the state with a population of approximately 900,000, has a unique cultural heritage, a significant agricultural economic base, and a rapidly expanding tourism and recreational industry.

Educationally, the region is served by a diverse mix of both public and private colleges and universities. As the largest and only multipurpose university in southwest Missouri, SMSU provides educational leadership in the region.

## SMSU System Abridged Mission Statement

Southwest Missouri State University is a multi-campus metropolitan university system with a statewide mission in public affairs, whose purpose is to develop educated persons while focusing on five themes: professional education, health, business and economic development, creative arts, and science and the environment.

The University's identity is distinguished by its statewide mission in public affairs, a campus-wide commitment to foster competence and responsibility in the common vocation of citizenship.

Further, the academic experience is grounded in a focused general education curriculum which draws heavily from the liberal arts and sciences. This foundation provides the basis for successful mastery of focused disciplinary and professional studies, as well as enabling critical, independent intellectual judgment on the culture, values, and institutions of the larger society.

The University understands its task of developing educated persons to include adding to the store of human understanding through research, scholarship and creative endeavor, and drawing from that store of understanding to provide service to both the local and professional community that supports it. In all of its programs, both undergraduate and graduate, the University is committed to using the most effective and regularly evaluated methods of discovering and imparting knowledge and to the appropriate use of technology in support of these activities.

The University functions through a multi-campus system structured to complement one another and to address the needs of the metropolitan area they jointly serve.

## Accreditation

The Springfield and West Plains campuses are separately accredited by the Higher Learning Commission - North Central Association of Colleges and Secondary Schools. The University is professionally accredited or approved by the following organizations:

Accreditation Commission for Programs in Hospitality Administration	Council on Social Work Education
The Accreditation Review Commission on Education for the Physician Assistant	Missouri Department of Elementary and Secondary Education
AACSB International	National Association of Industrial Technology
American Association of Family and Consumer Sciences	National Association of Schools of Music
American Chemical Society	National Association of Schools of Public Affairs and Administration
American Dietetics Association	National Association of Schools of Theatre
American Speech, Language, and Hearing Association	National Council for Accreditation of Teacher Education
Commission on Accreditation of Allied Health Education Programs	National Council on Education of the Deaf
Commission on Accreditation of Physical Therapy Education	National League for Nursing Accrediting Commission
Computing Sciences Accreditation Board	National Recreation and Parks Association/American Association for Leisure and Recreation
Council on Accreditation of Nurse Anesthesia Educational Programs	

## Organizational Officers

The Southwest Missouri State University System is under the general control and management of the Board of Governors which, according to statutes of the state of Missouri, is charged with the responsibility and authority to adopt administrative policies and procedures relevant to the management of the System.

Regular members of the eight-person Board of Governors are appointed by the Governor, with the advice and consent of the Missouri Senate, to serve six-year terms. Two appointments are normally made every biennium during a regular session of the General Assembly. A nonvoting student member of the Board is appointed for a two-year term.

### Board of Governors

Paul L. Redfearn, Kansas City - President	1997 - 2002

# student information

## highlights

- The fall 2002 headcount enrollment on the Springfield campus increased by 466 from the prior year.
- The enrollment of 18,718 students included 1,009 minority students and 536 non-resident aliens.
- All of Missouri's 114 counties were represented in the student body of the Springfield campus, with 31 counties contributing 100 or more students.
- In addition to Missouri, 46 states and 90 countries were represented in the fall enrollment.
- The basic fee for an undergraduate credit hour was \$128 in the 2002-2003 academic year.
- Of the \$84.9 million in financial aid awarded to SMSU students at the Springfield campus in fiscal year 2002, 44 percent was based on need. Loans accounted for almost half of the financial aid awarded.
- The College of Business Administration had the most majors, 4,290, followed by the College of Health and Human Services with 2,724.

# Student Enrollment by County of Residence, Fall 2002

**Students from all of Missouri's 114 counties attended the Springfield campus of SMSU in the fall semester, 2002. Counties contributing 100 or more students include:**

Barry — 179  
Boone —152  
Camden —132  
Cass —183  
Cedar —125  
Christian —937  
Clay —230  
Cole —199  
Dade —109  
Dallas —131  
Franklin —215

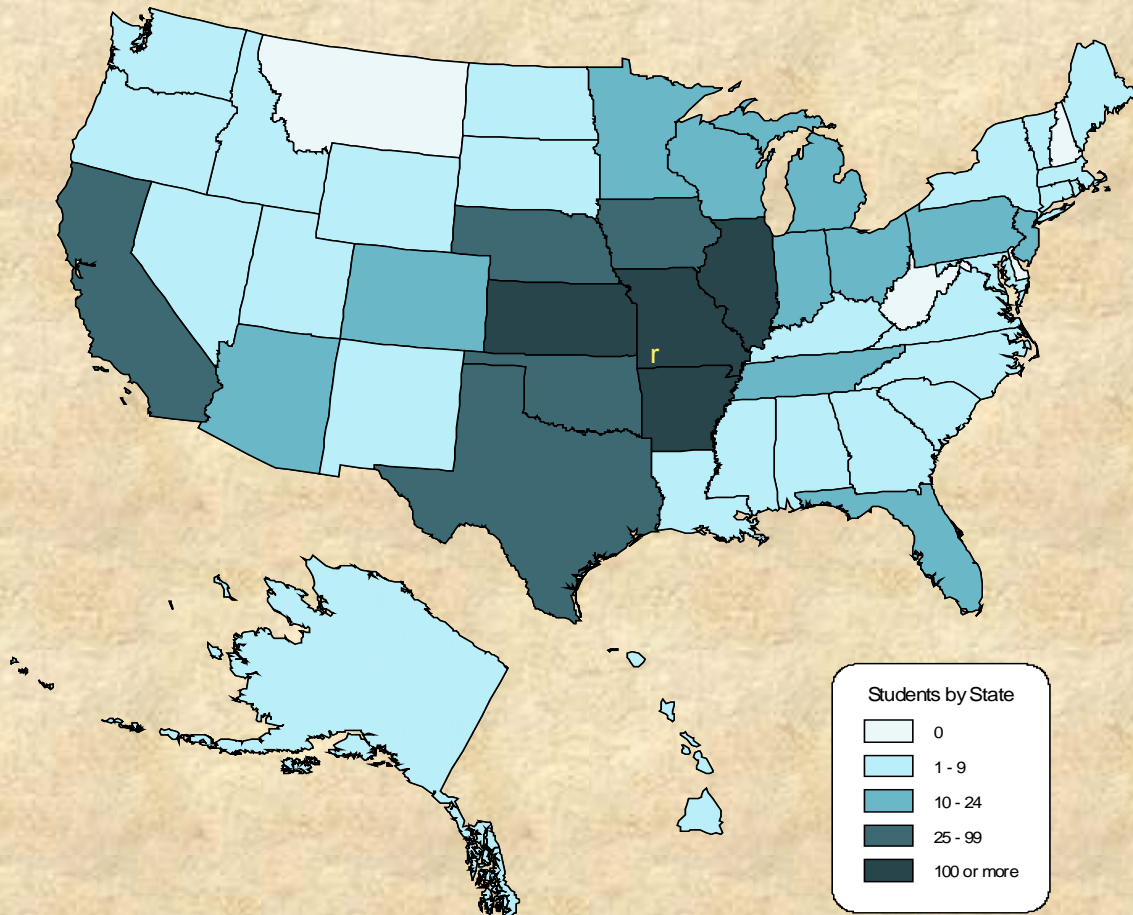

Greene —4,751  
Howell —370  
Jackson —799  
Jasper —458  
Jefferson —241  
LaCledé —253  
Lawrence —346  
Newton — 199  
Phelps —107  
Platte —115

Polk —310  
Pulaski —122  
St. Charles —640  
St. Louis —1,943  
Stone —234  
Taney —464  
Texas —154  
Vernon — 138  
Webster —289  
Wright — 147

# faculty and staff

## highlights

- The Springfield campus had 731 full-time instructional faculty in fall 2002, of which 37 percent were female and 65 percent were tenured.
- The average salary of all nine-month instructional staff for 2002-2003 was \$51,303.
- The University had 2,006 full-time employees and another 783 employees working part-time in 2002-2003. Thirty-six percent of the full-time staff were classified as instruction/research.
- In 2002, 73 percent of the full-time faculty held doctorate degrees. Over 51 percent of the executive and professional staff (specialist/support) held degrees beyond the bachelor's degree.

### Degrees of Faculty and Professional Staff, 2002-2003

# financial resources

## highlights

- The fiscal year 2002 state appropriations and payments constituted 38.8 percent of the \$190,790,410 in current funds revenues. Meanwhile, student fees accounted for \$43,537,350 or 22.8 percent of the revenues.
- Instruction accounted for 38.1 percent of the total expenses.
- Salaries consumed 56.2 percent of the educational and general funds for fiscal year 2002, which amounted to \$92.7 million.
- The University budget request for fiscal year 2004 contained \$208.9 million in expenditures.
- The Office of Sponsored Research and Programs assisted faculty and staff in obtaining over \$10 million from external funding sources in fiscal year 2002.
- The University has been begun reporting financial information under the GASB rules of accounting as set out in GASB Bulletin #35.

## Educational and General Funds by Expense Category (by percentage), Fiscal Year 2002

### Office of Sponsored Research and Programs

Seeking new funding sources is critical if the University is to maintain, expand, and develop new education, research, and service programs. Each year, externally funded projects provide millions of dollars in support of University-based projects. Outside funding sources also enhance the University by ensuring that faculty and students are afforded quality teaching, learning, and research opportunities. As shown in the table on the following page, external funding continues to climb — from \$4.6 million in 1999 to just over \$10 million in 2002. This represents a renewed commitment from faculty and staff to pursue outside funding support for the University.

Externally funded projects range from expanding a preschool project to purchasing new astronomy equipment; from preparing teachers to teach science to tracking bats in Indiana; and from providing a low-income tax clinic to preserving Missouri's waterways. These and other diverse projects are funded through state and federal grants, corporate-sponsored agreements, foundations, and private donations and contracts. Externally-funded projects promote multidisciplinary collaborations within the University, joint ventures with business and industry, partnerships with K-12 schools, collaborations with other community organizations, and alliances with other higher education institutions.

The Office of Sponsored Research and Programs (SRP) is a "help center" for faculty, staff, and students interested in pursuing external funding. SRP helps University personnel: (a) identify potential funding sources; (b) organize project development teams; (c) gather data for proposals; (d) edit proposals; and (e) develop project budgets. SRP coordinates the submission of proposals to funding sources; provides guidance on compliance issues; assists in the start-up of funded projects; provides guidance on the protection and transfer of University-owned intellectual property; and provides training in identifying funding sources, developing competitive proposals, and managing grant funds.

In FY 2002, the University submitted 314 proposals for support of new or on-going projects. The University received 234 awards in the form of grants or contracts in this fiscal year for a total of \$10,023,231. Of the total awards, 43% were for research and other scholarly projects, 42% were for education projects, 12% were for community service projects, and 3% were dedicated to obtaining equipment. Of the total awards, 32% were from state agencies, 30% were from county or city agencies, 20% were from federal agencies, 11% were from businesses, and 7% were from non-profit organizations.

## Sponsored Projects Activity: Comparison of Awards (in dollars) by Fiscal Year

## Primary Use of Funds Awarded, Fiscal Year 2002

# facilities of the springfield campus

## highlights

- The Springfield campus contains 38 educational and general buildings and 18 auxiliary enterprise facilities.
- Currently, 4,074 students are living in University housing, including about 2,200 first-time freshmen.
- The University has over 2.5 million square feet of assignable building space.
- The Meyer Library contains over 1.7 million books and government documents. The Library was visited by almost 400,000 patrons during 2001-02.

## General Characteristics of Major Physical Facilities, Fall 2002

Building	Year Completed	Original Cost	Current Value	Gross Square Feet	Assignable Square Feet
<b><i>Educational and General Service Facilities</i></b>					
Alumni Center	1972	N/A	3,040,380	36,195	28,500
Archaeology Research	N/A	N/A	297,043	4,742	3,546
Art Annex	1948	113,666	1,674,814	19,433	14,840
Burgess House	N/A	N/A	281,698	3,742	2,447
Carrington Hall	1908	201,393	8,153,806	96,765	56,529
Central Stores and Maintenance	1977	495,367	1,268,859	30,175	27,046
Cheek Hall	1955	599,982	7,422,202	87,066	49,656
Craig Hall	1967	1,724,800	7,535,213	87,823	43,651

## Library Facts

The SMSU Libraries are comprised of the Duane G. Meyer Library, the Music Library, the Paul Evans Library of Fruit Science, and the Greenwood Laboratory School Library. These library collections include 806,819 accessioned volumes and current subscriptions to 4,238 periodicals and newspapers with extensive back files on microfilm, microfiche, and microcard. Total microform holdings amount to over a million units. Collections of audiovisual materials total over 33,500 titles. Almost 901,000 state, federal, and United Nations documents are held as a result of the Meyer Library being a selective federal depository, a full depository for state publications and, as of December 2000, a full depository for United Nations publications. The cartographic collection is one of the largest in the state of Missouri with over 180,000 maps, aerial photos, and other items. Over 387,000 people entered the SMSU libraries during 2001-2002.

The addition and renovation of Meyer Library was completed during the 2001-02 year. The project doubled the size of the Library and provided space for support units such as Assistive Technology, Instructional Technology and Media Services, and the Academic Development Center.

A number of special collections are housed in the Meyer Library. The Ozarkiana Collection is a selective collection of books, journals, and manuscripts including the Lena Wills Geneological Collection. The William J. Jones French Literature Collection contains over 2,000 items by and about poets Arthur Rimbaud and Michel Butor. It also contains material regarding Stephane Mallarme and general works on French literature. The Ozarks Labor Union Archives is Missouri's largest repository of records documenting labor history in the Ozarks. University Archives serves as the institutional memory of the University by identifying, acquiring, preserving, and providing access to records that chronicle the history and development of the University.

Innovation and the use of new technologies are evident in the SMSU Libraries. Beginning in July 2000, the statewide Mobius system was implemented for the Southwest area and is known as SWAN or the Southwest Academic Network, with access to regional holdings of all cataloged materials in the member libraries. Materials borrowed directly by patrons are delivered by courier among member libraries with a 48-hour turnaround. Most of the bibliographic data for this system is created as materials are catalogued, using the On-line Computer Library Center, Inc., (OCLC), a database with more than 47 million bibliographic records. Electronic access is provided to reference resources, course-reserve materials and licensed commercial citation and full-text databases on the Libraries' homepage through 75 available databases. In addition to citations from thousands of journals, newspapers, and books, these databases contain articles from over 3,000 journals and newspapers in full-text. SMSU Libraries also maintain an extensive index of authoritative Web-based referenced resources, organized by broad subject categories which include full-text, analytical, indexing, and other resources.

Identification of, and requests for materials not held in our libraries are enabled through OCLC which has links to over 42,000 libraries in 89 countries. Telefacsimile and electronic transmissions are commonly used to acquire material in a timely fashion. A Campus Computer Lab for SMSU faculty, staff, and students is located in Meyer Library. A variety of software is provided, and there is the capability to scan and make laser prints.

Instruction in the use of library materials and services is provided through library science courses, particularly LIS 101, the *Use of the Library*. A minor in Library Science is offered, and graduate-level courses prepare students for certification as Library Media Specialists.

## facilities of the springfield campus

A cooperative effort with the University of Missouri at Columbia makes it possible for graduate students to enroll in SMS courses for UM-C credit in the library science program. One-time instructional sessions and short courses are provided to fit particular course needs or to give on-going instruction in the use of specialized resources.

## s m s u – west plains

### highlights

- The primary mission of the West Plains Campus is to provide quality educational opportunities to south-central Missouri.
- The academic programs offered by the campus are one-year certificates and two-year associate degrees.
- Selected bachelor's and master's degree programs are offered by the Springfield Campus, much of it via distance learning using interactive video.
- Enrollment reached 1,720 students in fall 2002, an all-time high.
- Female students comprise 67 percent of the enrollment.

## General Information

### Campus History and Setting

Southwest Missouri State University-West Plains (SMSU-WP) was established in 1963 as the West Plains Residence Center of Southwest Missouri State University, and has been a semiautonomous, two-year campus within the SMSU system since 1971. Consistent with the university mission, SMSU-WP provides a strong general education program rooted in the liberal arts, as well as quality occupational and technology programs.

In addition to courses and programs offered in West Plains, SMSU-WP offers the Associate of Arts degree in General Studies (AA) at the Extended Campus at Mountain Grove, Missouri. SMSU-WP also offers the AA degree, with an emphasis in business, at the SMSU Branch Campus in the People's Republic of China.

SMSU-WP is located 110 miles southeast of Springfield, Missouri, in the community of West Plains, Missouri. Currently the campus consists of sixteen buildings including a new technology center completed in the spring of 2000. The college primarily attracts students from a seven-county area of the south-central Missouri Ozarks region and from adjacent counties in north Arkansas.

### Mission

Southwest Missouri State University-West Plains has a mission to provide quality educational opportunities to south-central Missouri. To accomplish this mission, the SMSU-WP campus community has committed to achieving these seven goals:

- Educate students for constructive citizenship, meaningful careers, and lifelong learning through the delivery of accredited and affordable programs;
- Cultivate educational, technological, cultural, and economic development throughout the service area;
- Foster an environment that enables individual student learning and success;
- Operate as an integral entity within the SMSU system;
- Engage constituencies in a continuing conversation that stimulates innovation, progress, and excellence;
- Practice good stewardship of resources; and
- Assess institutional effectiveness, as well as plan for the future.

### Accreditation

In the spring of 1994, SMSU-WP received its initial accreditation to offer associate degrees from the Higher Learning Commission (formerly the North Central Association of Colleges and Schools). In November 1998, the Commission made a second accreditation visit to the campus. As a result, SMSU-WP was approved as an accredited institution with no restrictions on the type of associate degrees it could offer, and was approved to offer the Associate of Arts degree in General Studies (AA) at the Mountain Grove Extended Campus. In May 2002, SMSU-WP was accredited to offer the AA degree, with an emphasis in business, at the SMSU Branch Campus in the People's Republic of China. The branch campus is located in Dalian at Liaoning Normal University. In addition, the SMSU-WP associate degree program in nursing is fully approved by the National League for Nursing Accrediting Commission (NLNAC).

### Opportunities for Further Degrees

A student may now earn a bachelor's or master's degree in selected areas. All of the required courses for the Bachelor of Science degree in General Business, the Bachelor of Science in Education degree in Elementary Education, the Bachelor of Applied Science degree in Industrial Technology, and the Master of Business Administration degree may be obtained without having to leave West Plains. Courses that apply toward a Master of Science in Nursing degree, a Master of Science in Education degree in Educational Administration, and a Master of Science in Education degree in Elementary Education are also offered. In addition, students may enroll in a variety of other upper division or graduate courses on the West Plains campus. All of these courses are offered on-site or through BearNet, SMSU's interactive television distance education network.

### Serving the Wider Community

In partnership with The Missouri Enterprise Business Assistance Center, the SMSU-WP Center for Business and Industry Training (CBIT) provides business and technical assistance to businesses and industries in south-central Missouri. Workshops, seminars, conferences, and other training and education formats, both on and off campus, are offered.

#### Associate Degrees Currently Offered — West Plains Campus

Associate of Arts in General Studies

Associate of Science in Nursing

Associate of Applied Science in Child Development

Associate of Applied Science in Computer Technology

Associate of Applied Science in General Technology

Associate of Applied Science in Industrial Technology

Associate of Applied Science in Law Enforcement

# alumni and development

## highlights

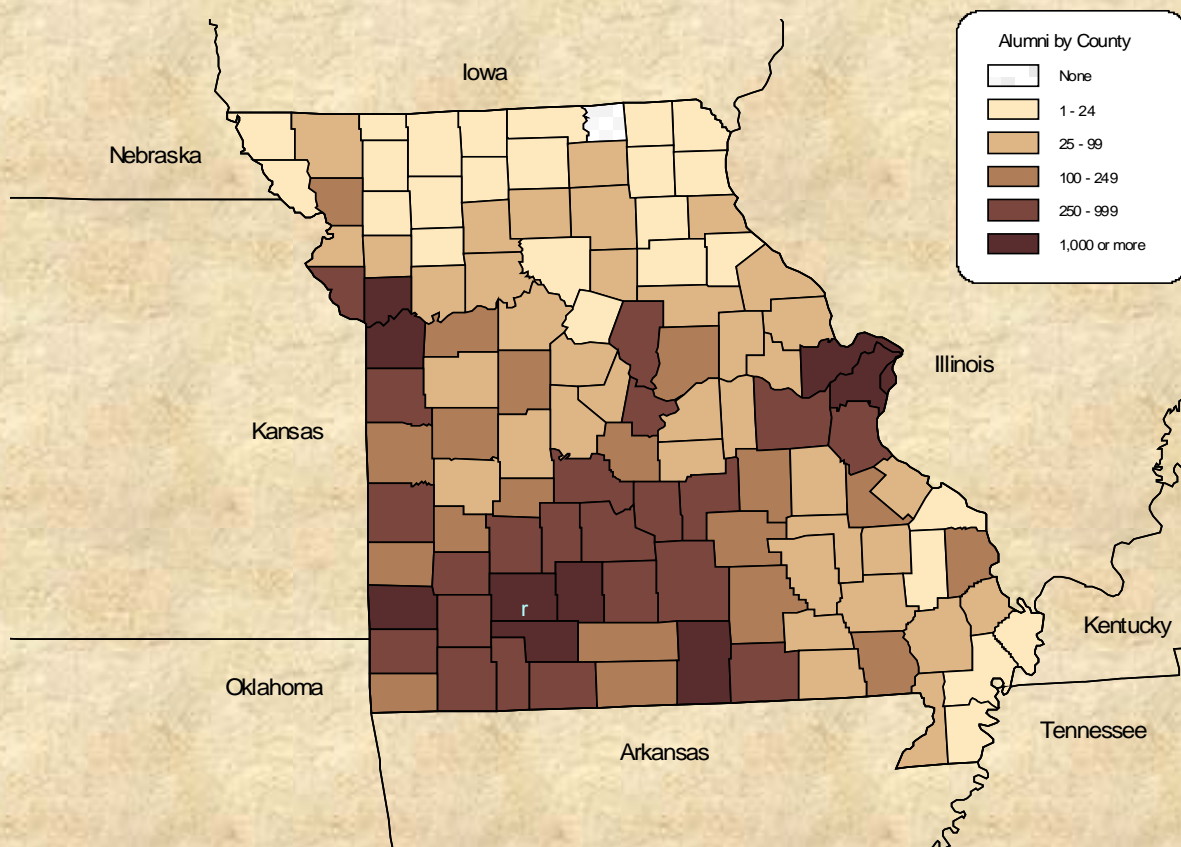

- According to the latest records of the Office of Alumni and Development, most of SMSU's alumni (approximately 53,000) currently reside in Missouri, representing every county except Schuyler County. Twenty-nine counties have over 250 alumni, with almost 16,000 residing in Greene County alone.
- Over 19,000 alumni live outside Missouri, representing every state in the United States
- The Alumni Association has developed programs and activities that allow alumni and former students to continue their identification with the University. In fiscal year 2002, over 7,000 alumni contributed approximately \$1.5 million
- Gifts to the University Foundation during 2001-02 provided over \$8.3 million for student aid, endowments, capital projects, and other University programs.

## Alumni by County of Residence, 2002

### Counties in Missouri in which more than 250 alumni reside include:

Barry — 578  
Boone — 741  
Camden — 424  
Cass — 393  
Christian — 2,792  
Clay — 1,052  
Cole — 755  
Dade — 271  
Dallas — 317  
Franklin — 810

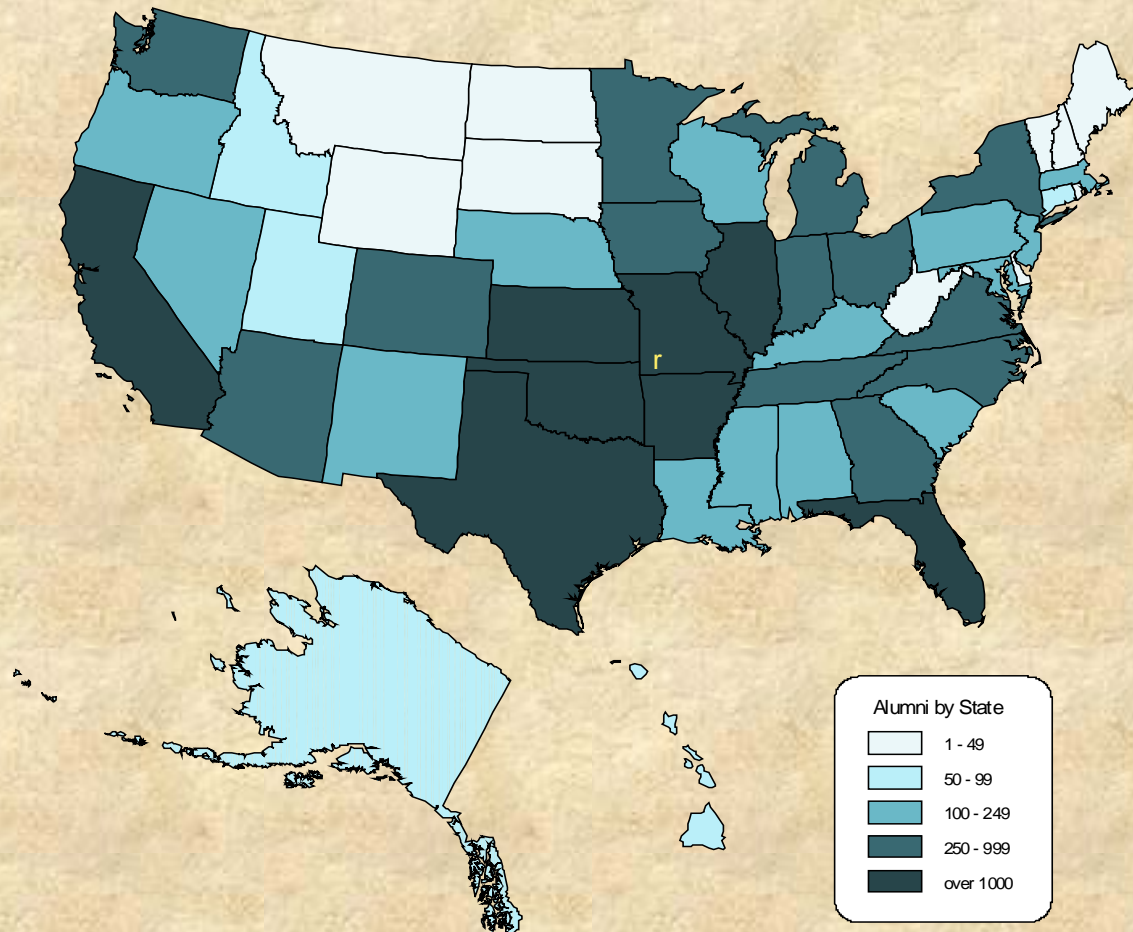

Greene — 15,875  
Howell — 1,212  
Jackson — 2,995  
Jasper — 1,144  
Jefferson — 769

## Southwest Missouri State University Foundation

Formed in January 1981, the Southwest Missouri State University Foundation is a not-for-profit organization which has as its mission:

**"To develop an environment which promotes giving and therein seek, receive, manage, and distribute resources in a manner appropriate to support programs of instruction, research, and public service of the University."**

Thus, the Foundation is empowered to solicit and receive gifts and bequests, to accept trusts subject to the conditions imposed on them, and to hold, administer, manage, use, or distribute gifts, bequests and trusts for the benefit of Southwest Missouri State University. The Foundation exists to benefit SMSU, its faculty and students; to improve its standards and potentialities as an institution of higher learning; and to promote the general welfare of the University.

The main emphasis of the Foundation is centered around major donor solicitation, the Greater SMSU Annual Fund, the honor clubs, The Bears Fund, The Performance Society, and a planned and deferred giving program. The Annual Fund solicits gifts from faculty and staff, alumni, and friends of the institution through a Campus Campaign, the Nationwide Phone Campaign, and direct mail. The honor clubs, which offer special recognition for individual giving, include:

<b>The Founders Club</b>	<b>minimum of a \$10,000 outright gift over a ten year period, or a \$100,000 deferred gift.</b>
<b>The Carrington Club</b>	<b>\$500 or more annually or larger gifts from donors who have not pledged at The Founders Club level.</b>
<b>The Maroon &amp; White Club</b>	<b>gifts of \$250 to \$499 annually.</b>
<b>The Century Club</b>	<b>gifts of \$100 to \$249 annually.</b>

The Bears Fund is the fundraising program for SMSU intercollegiate athletics. The Performance Society is the fundraising program established to provide annual support for the operational needs of the Juanita K. Hammons Hall for the Performing Arts. Planned and deferred giving programs offer educational seminars and mailings for alumni and interested friends of the University, as well as provide donors opportunities to endow scholarships, grant bequests through their wills, establish life income gifts, and utilize other estate planning vehicles. Deferred gift commitments of at least \$10,000 are recognized through The 1905 Society.

In fiscal year 2002, 26,891 donors made 34,836 outright gifts of cash and property totaling over \$8.3 million. The total deferred gift commitments made to the University have reached over \$25 million. Gift and pledge commitments to the Foundation since its formation in 1981 have reached nearly \$107 million.

# s m s u – mountain grove

## highlights

- Founded in 1899, the State Fruit Experiment Station, which was assigned to Southwest Missouri State University in 1974, is the oldest identifiable component of the University. The Station is operated by the Department of Fruit Science, which was created in 1994.
- An interdepartmental degree program leading to a Master of Science in Plant Science offers students the opportunity to enroll in courses and conduct thesis research in the Departments of Agriculture, Biology, Chemistry, and Fruit Science.
- The State Fruit Experiment Station performs extensive testing of new fruit varieties to assess their performance in Missouri. Research findings are then disseminated through a variety of advisory programs.
- The Station's grape and wine program is the largest and most comprehensive in the Midwest.
- Grants and gifts contribute 25-30 percent of the Station's funding each year.
- The campus houses the Mid-America Viticulture and Enology Center, which attracts funding for research and education programs.

## History and General Information

SMSU-Mountain Grove serves as the research campus within the Southwest Missouri State University System. It houses the state Fruit Experiment Station and the Mid-America Viticulture and Enology Center.

The State Fruit Experiment Station has a legislated mandate to generate knowledge through research, and to disseminate this knowledge to support and expand the productivity and profitability of the Missouri fruit industry. The Station, which is the oldest identifiable segment of Southwest Missouri State University, was founded by legislative act in 1899 and was assigned to the University on July 1, 1974, under the Omnibus State Reorganization Act. In 1994, the Station became a part of the newly designated research campus.

The Department of Fruit Science, created through University reorganization in 1994, staffs and operates the State Fruit Experiment Station. Employees include eight faculty, five professional staff, and eleven support staff. In addition to carrying out research and advisory programs, faculty guide graduate students in thesis research, and teach classes in their various disciplines. Faculty and professional staff both supervise undergraduates on internships.

Research is carried on in pomology, enology, viticulture, plant pathology, entomology, biotechnology, and plant physiology. The fruit crops under investigation include apples, grapes, blueberries, peaches, strawberries, blackberries, and raspberries. Information derived from the Station's research is disseminated by advisory programs to fruit growers and processors through bulletins, newsletters, a newspaper column, conferences, workshops, and personal consultations.

The State Fruit Experiment Station is the site of extensive testing of new fruit varieties and selections for their adaptability to Missouri soil and climate and resistance to diseases. One of only three USDA quarantine facilities for the introduction and virus testing of grape varieties originating outside of the United States is located at the Station. Research on the culture of fruit crops is carried out on nutrient and water requirements, pruning and training systems, growth regulators, and rootstocks. Plant pathogens and insect pests are studied to help reduce their damage to fruit crops. Research on reducing pesticide use for management of diseases, insects, and weeds is a major ongoing effort.

Grapes and blueberries are two crops of particular interest at the State Fruit Experiment Station. Located in a natural grape environment, the Station has been the site of extensive grape experimentation since 1900. The Station's research and advisory education efforts are the basis for the recent rapid economic development of Missouri's grape and wine industry. Today, the Station's grape and wine program ranks among the most comprehensive in the United States. The Mid-America Viticulture and Enology Center was established in 1999 to attract and coordinate funding for research and education programs in the multi-state region. Blueberry production is one of the newest successful fruit industries in Missouri. Blueberry research at the Station began in 1975 and has helped growers meet the specialized needs of blueberry production under Missouri conditions.

An interdepartmental master's degree program in plant science was initiated in August of 1997. This program includes the Department of Fruit Science, as well as the Departments of Agriculture, Biology and Chemistry at the Springfield campus. Graduate students desiring an emphasis in enology, viticulture, pomology, or plant biotechnology take courses and conduct thesis research with faculty from the Department of Fruit Science. Undergraduate students receive credit in internships, special topics courses, and research. In addition, students in the Mountain Grove area may take classes offered by SMSU-West

## research campus at mountain grove

Plains and earn an Associate of Arts degree on-site. In fall 2002, about 150 students participated in this program. Facilities on the campus include Shepard Hall, a classroom building, two fruit processing laboratories, a shop and maintenance building, duplex housing, greenhouse facilities, and cold storage. Historic Faurot Hall, renovated in 1998, houses a library, interactive television and other classrooms, and a plant science laboratory for graduate students.

# research and service centers

## highlights

- The University currently maintains ten on-campus centers for research and public service.
- Six of the centers are located in the Colleges of Humanities & Public Affairs and Natural & Applied Sciences.
- The Center for Assessment and Instructional Support provides leadership in the effort to assess student learning outcomes.
- The Institute for School Improvement provides professional development activities to area educators, oversight to several community/school partnerships, and research and program evaluation support.

## Center, Bureau, and Institute Descriptions

### **Center for Archaeological Research**

College of Humanities and Public Affairs, 1975

The Center is designed to study, record, and share knowledge of past cultures, as well as conduct research studies for various private and public agencies. The information gained from archaeological research is then disseminated through a variety of scholarly outlets and educational programs.

### **Center for Assessment and Instructional Support**

reports to the Vice President for Academic Affairs, 1987

The Center was created to develop and implement the University's assessment program and to provide faculty with unique opportunities for the development, acquisition and/or enhancement of their instructional methods. The Center conducts a comprehensive multidimensional program to assess student learning outcomes, to disseminate the results of Center studies to constituents, to collaborate with faculty in the design and implementation of strategies for academic program improvement, and to provide faculty instructional support. The Center coordinates student outcome assessment planning to provide assessment and to apply the assessment results to promote continuous improvement in student learning. The Center coordinates placement testing for new students; assessment in academic majors; assessment of general education; and surveys of student, alumni, employer, and faculty opinions. The Center provides instructional support through workshops, seminars and reference materials.

### **Center for Business and Economic Development**

College of Business Administration, 1981

The Center for Business and Economic Development is the outreach arm of the College of Business Administration, and as such, its activities are primarily aimed at helping public and private sector entities improve their management abilities, and help create and retain job opportunities for American workers. The efforts of the Center are primarily handled through the following programs:

The **Small Business Development Center** provides general management and technical assistance to small enterprises in southwest and south central Missouri. It also has a state-wide mission in the area of international business and is a satellite office of the World Trade Center in St. Louis. Counseling is offered in strategic planning, market research, cash flow analysis, procurement, exporting, and a variety of other areas. Center offices are located on both the Springfield and West Plains campuses.

The **Management Development Institute** provides a broad base of noncredit programs and seminars in such areas as management, supervision, human resources, strategic planning, and many other business areas. Professional certification programs and special in-house training programs are also provided for both public and private sector organizations.

The **Center for Industrial Productivity** is dedicated to assisting business and industry in research, development of new manufacturing technologies, and training of professionals involved in manufacturing. The primary objective of the Center is to support area business and industry in their pursuit of manufacturing excellence in their management practices, application of new technologies, and efforts to remain competitive in the global market place.

**Bureau of Economic Research**

College of Humanities and Public Affairs, 1971

The Bureau serves as a depository of economic data relevant to the Ozarks region. It distributes that information to interested parties to encourage economic research and to stimulate interest in special projects.

**Institute for School Improvement**

reports to the Dean, College of Education, 1998

The Institute for School Improvement (ISI) provides administrative oversight for a number of professional development programs. Project investigators conduct research to examine the impact of such programs on teaching and learning, thus “linking theory to practice.” ISI is currently one of three support units in the College of Education and is an affiliate of the Professional Education Unit. The professional development activities of ISI provide direct assistance to PK-12 teachers, administrators, and university faculty, working through the following organizations and individuals:

Accelerated Schools, Southwest Regional Professional Development Center, Select Teachers As Regional Resources, Missouri Reading Initiative, Missouri Math Initiative, Blindness Skills Specialist, and the Department of Elementary and Secondary Education Area Supervisor.

The Institute’s oversight of community/school partnerships include the SMSU Literacy Center and the Outreach Coordinator. The Institute’s research and program evaluation activities utilize both qualitative and quantitative approaches to conduct evaluative, descriptive, predictive, and applied research studies that focus primarily on curricular and instructional processes as they relate to classroom practice and student outcomes, including student achievement.

**Center for Research and Service**

College of Health and Human Services, 1984

The Center for Research and Service provides academic, scientific, and methodological resources to constituents within and outside of the University to forward the public affairs mission.

**Center for Resource Planning and Management**

College of Natural and Applied Sciences, 1988

The Center provides educational training, applied research, and community outreach services in the field of urban planning and community development. Services provided to local governments, state and federal agencies, and civic organizations include small town planning, comprehensive planning, grant writing, economic development planning, digital cartographic services, and specialty planning services. The Center is an affiliate census data center of the Missouri State Library and is the administrative agent of the Southwest Missouri Advisory Council of Governments.

**Center for Scientific Research and Education**

College of Natural and Applied Sciences, 1984

The Center promotes scientific research, service, and educational activities by matching the professional expertise and physical facilities of the College of Natural and Applied Sciences with the needs of private firms, not-for-profit organizations, government agencies, and educational institutions. While serving the University's external constituents, the Center provides research and service opportunities for SMSU faculty and students.

### **Center for Social Sciences and Public Policy Research**

College of Humanities and Public Affairs, 1999; formerly the Center for Social Research, 1986

The Center for Social Sciences and Public Policy Research (CSSPPR) is an interdisciplinary center where faculty and students conduct both applied and theoretical research in the social sciences and humanities. The Center conducts research sponsored by public and private organizations on a variety of issues of local, state, and national concern. The Center's research efforts foster an understanding of what constitutes effective public policy and how it is created.

### **Mid-America Viticulture and Enology Center**

College of Natural and Applied Sciences, 1999

The mission of the Mid-America Viticulture and Enology Center is to promote growth of the grape and wine industry through focused research, advisory, and service activities. The Center coordinates work carried on in viticulture and enology so as to efficiently use available resources in Missouri and surrounding states. The Center is located on the SMSU Mountain Grove campus, which has long been recognized for its grape research and advisory work.

Southwest Missouri State University is a community of people with respect for diversity. The University emphasizes the dignity and equality common to all persons and adheres to a strict nondiscrimination policy regarding the treatment of individual faculty, staff and students. In addition, in accord with federal law and applicable Missouri statutes, the University does not discriminate on the basis of race, color, religion, sex, national origin, ancestry, age, disability, or veteran status in employment or in any program or activity offered or sponsored by the University. The University maintains a grievance procedure incorporating due process available to any person who believes he or she has been discriminated against. Southwest Missouri State University is an Equal Opportunity/Affirmative Action employer. Inquiries concerning the grievance procedure, Affirmative Action Program, or compliance with federal and state laws and guidelines should be addressed to Jana Long, Equal Opportunity Officer, Carrington Hall 218, 901 South. National, Springfield, MO 65804; (417) 836-4252.
