General Information

HIGHLIGHTS

- * Southwest Missouri State University, which was founded in 1905, is one of the thirteen, four-year, public-supported institutions of higher education in Missouri.
- * The University was given a regional mission by legislative act in 1919. A new mission statement has been approved by the University's Board of Regents which seeks an expanded mission.
- * The University is currently a multipurpose institution offering a variety of programs and services at two locations. In addition to the main campus at Springfield, a residence center was established in 1963 at West Plains, 110 miles to the southeast.
- * In June of 1983, Dr. Marshall Gordon was appointed as the University's seventh president.
- * In 1989, two new Board of Regents members, Jim Ferguson of Springfield and Jerry Hall of West Plains, replaced Carol Robinson and Jay Padgett. In addition, Joseph Passanise replaced Julie Wagner as the student member to the Board.
- * The academic organization of the Springfield campus consists of six colleges, a graduate school, and an office of continuing education.
- * The University had an estimated economic impact on Springfield and Greene County of approximately \$429 million in 1986-87.

HISTORY AND ACCREDITATION

University Heritage

Southwest Missouri State University was founded in Springfield in 1905 as the Fourth District Normal School. The institution's primary purpose, during its early years, was the preparation of teachers for the public school systems in the southwest region of Missouri. The first name change came in 1919 when the school became Southwest Missouri State Teachers College, reflecting its regional mission. By the mid-1940's, the University had expanded its instructional program beyond teacher education to include the liberal arts and sciences; and as a consequence, the Missouri legislature, in 1945, authorized an official change in the institution's name to Southwest Missouri State College. As additional programs were implemented at the undergraduate level and with the development of graduate education, the University, by 1972, had become an educationally diverse institution. Recognition of this further growth and development again resulted in an official change in name to Southwest Missouri State University. Today, the institution is a multipurpose university providing diverse instructional, research, and service programs.

In addition to the campus at Springfield, a residence center offering freshman and sophomore level courses was established at West Plains. Courses fulfilling the requirements of associate degrees in general studies and nursing are offered at the campus. Other specialty and skills courses commensurate with community needs and interests are also available.

University Setting

Southwest Missouri State University is located in Springfield, the third largest population center in Missouri with a metropolitan statistical area of 234,300. Supported by an industrial/manufacturing base and an expanding service industry in tourism, the community serves as a regional center for health and medical services for southwest Missouri, northwest Arkansas, southeast Kansas, and northeast Oklahoma.

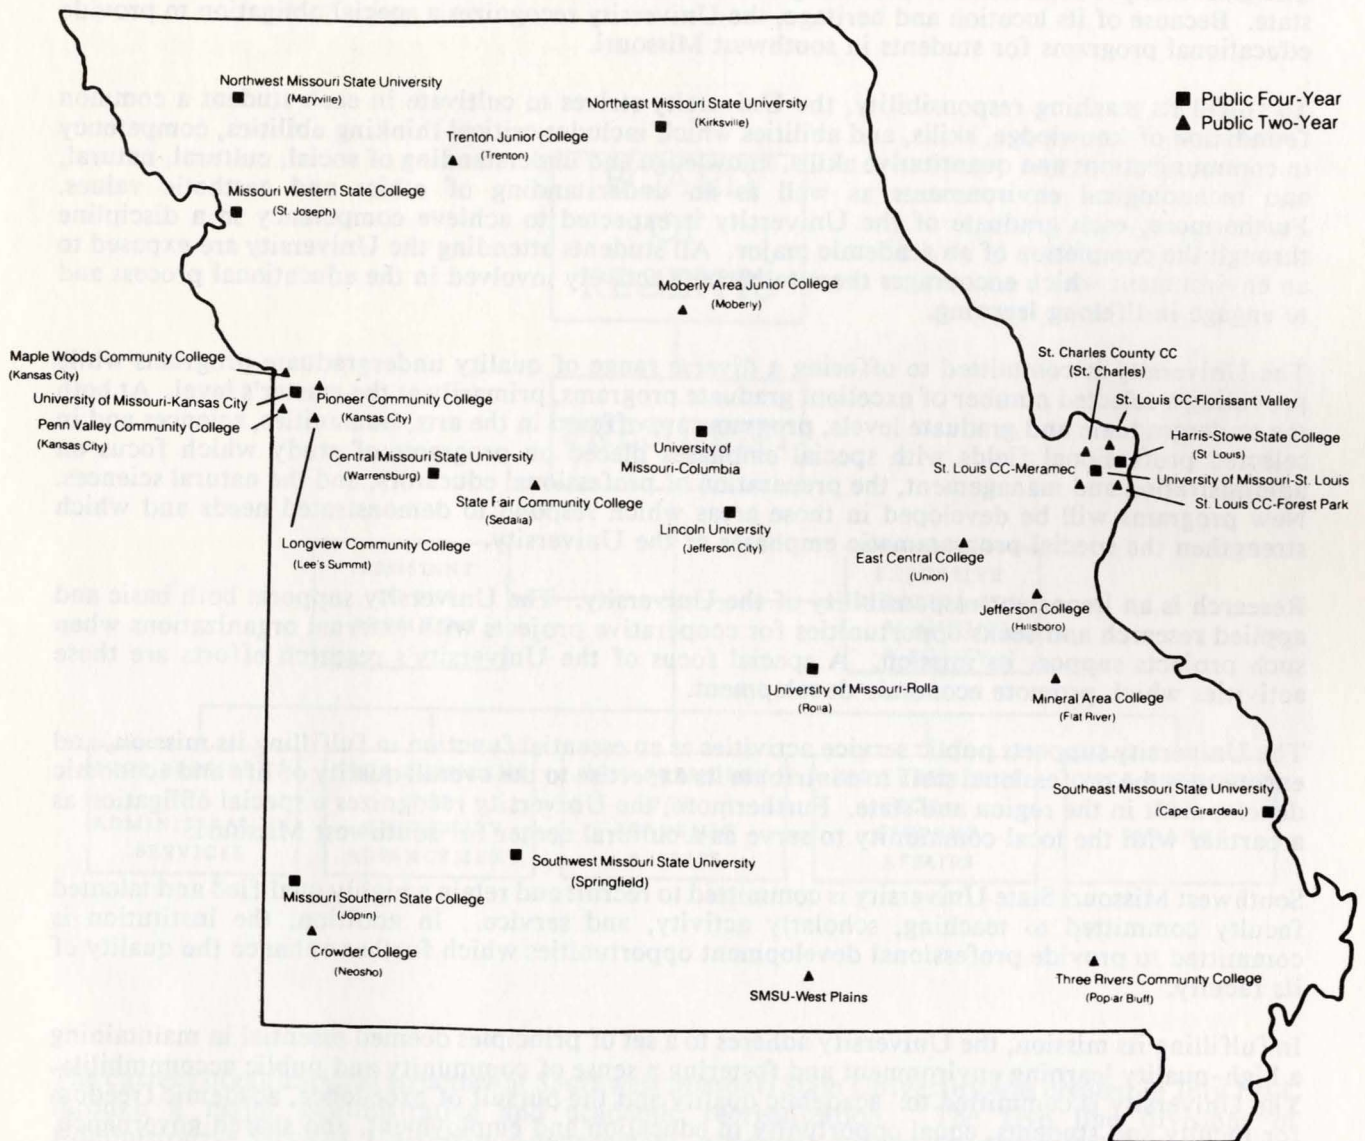

The University's primary service region of southwest Missouri has certain distinctive characteristics which influence various activities and programs of the institution. The southwest region, the fastest growing area in the state with a population of over 735,000, has a unique cultural heritage, a significant agricultural economic base, and a rapidly expanding tourism and recreational industry.

Educationally, the region is served by a diverse mix of both public and private colleges and universities. As the largest and only multipurpose university in southwest Missouri, SMSU provides educational leadership in the region.

Accreditation

The University is accredited to offer baccalaureate and master's degrees by the North Central Association of Colleges and Secondary Schools. The University is professionally accredited or approved by the National Council for Accreditation of Teacher Education, National Association of Schools of Music, The National League for Nursing, The American Chemical Society, The Council on Social Work Education, American Dietetics Association, Council on Education for the Deaf, American Home Economics Association, American Association for Leisure and Recreation, American Speech-Language-Hearing Association, National Athletic Trainers Association, and Computing Sciences Accreditation Board.

MISSOURI STATE MAP WITH PUBLIC COLLEGES AND UNIVERSITIES

UNIVERSITY MISSION

Southwest Missouri State University is a public comprehensive institution of higher education with a three-fold mission to advance learning, further scholarly inquiry, and provide service. The University seeks to achieve its mission through excellence in teaching, research, and public service. The institution is committed to support these functions as integrated, not isolated, activities.

The University is committed to providing educational opportunities to students from throughout the state. Because of its location and heritage, the University recognizes a special obligation to provide educational programs for students in southwest Missouri.

To fulfill its teaching responsibility, the University strives to cultivate in each student a common foundation of knowledge, skills, and abilities which includes critical thinking abilities, competency in communications and quantitative skills, knowledge and understanding of social, cultural, natural, and technological environments as well as an understanding of ethics and aesthetic values. Furthermore, each graduate of the University is expected to achieve competency in a discipline through the completion of an academic major. All students attending the University are exposed to an environment which encourages them to become actively involved in the educational process and to engage in lifelong learning.

The University is committed to offering a diverse range of quality undergraduate programs while providing a selected number of excellent graduate programs, primarily at the master's level. At both the undergraduate and graduate levels, programs are offered in the arts, humanities, sciences and in selected professional fields with special emphases placed on programs of study which focus on administration and management, the preparation of professional educators, and the natural sciences. New programs will be developed in those areas which respond to demonstrated needs and which strengthen the special programmatic emphases of the University.

Research is an important responsibility of the University. The University supports both basic and applied research and seeks opportunities for cooperative projects with external organizations when such projects support its mission. A special focus of the University's research efforts are those activities which promote economic development.

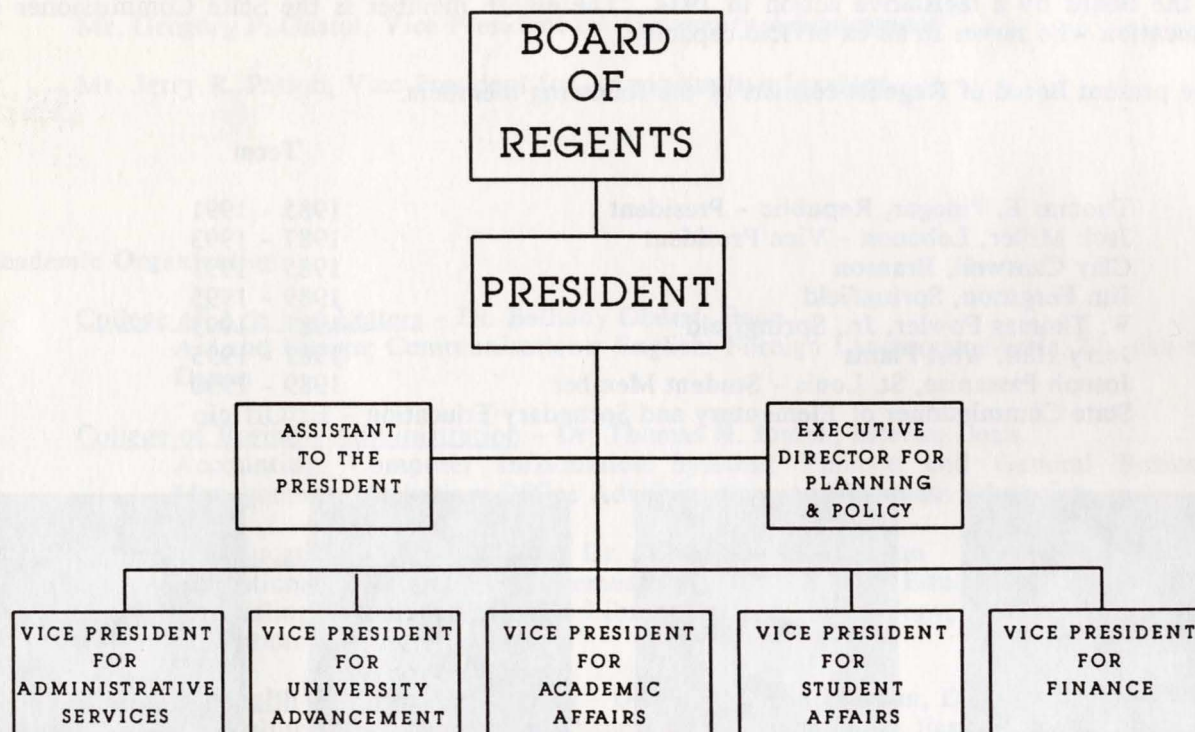

The University supports public service activities as an essential function in fulfilling its mission, and encourages the professional staff to contribute its expertise to the overall quality of life and economic development in the region and state. Furthermore, the University recognizes a special obligation as a partner with the local community to serve as a cultural center for southwest Missouri.

Southwest Missouri State University is committed to recruit and retain a highly qualified and talented faculty committed to teaching, scholarly activity, and service. In addition, the institution is committed to provide professional development opportunities which further enhance the quality of its faculty.

In fulfilling its mission, the University adheres to a set of principles deemed essential in maintaining a high-quality learning environment and fostering a sense of community and public accountability. The University is committed to: academic quality and the pursuit of excellence, academic freedom for faculty and students, equal opportunity in education and employment, and shared governance.

To meet its public responsibility, the institution has an obligation to the citizens of Missouri to support the educational and research priorities of the state and to assess the quality and effectiveness of its programs and services. Furthermore, because of its location, the University has a special obligation to the public to preserve and advance knowledge of the state's unique social and cultural heritage derived from the Ozarks region.

ORGANIZATIONAL CHART

The current organizational structure at Southwest Missouri State University was created in July 1984, through a major administrative and academic reorganization. The five line divisions of Administrative Services, University Advancement, Academic Affairs, Student Affairs, and Finance are each headed by a vice president. Other administrative positions which report directly to the President are Assistants to the President and the Executive Director for Planning and Policy.

The primary academic programs of the University are organized into six collegiate units--College of Arts and Letters, College of Business Administration, College of Education and Psychology, College of Health and Applied Sciences, College of Humanities and Social Sciences, and College of Science and Mathematics. A Graduate School, the West Plains Campus, and an Office of Continuing Education complete the academic spectrum.

ORGANIZATIONAL OFFICERS

Board of Regents

Southwest Missouri State University is under the general control and management of the Board of Regents, which according to statutes of the state of Missouri possesses full power and authority to adopt all needful rules and regulations for the guidance and supervision of the University.

Six members of the Board are appointed by the Governor, by and with the advice and consent of the Senate, to serve six-year terms. Two appointments are normally made every biennium during a regular session of the General Assembly. A student member, with non-voting privileges, was added to the Board by a legislative action in 1984. The eighth member is the State Commissioner of Education who serves in an ex officio capacity.

The present Board of Regents consists of the following members:

	Term
Thomas E. Pinegar, Republic - President	1985 - 1991
Jack Miller, Lebanon - Vice President	1987 - 1993
Clay Cantwell, Branson	1985 - 1991
Jim Ferguson, Springfield	1989 - 1995
W. Thomas Fowler, Jr., Springfield	1987 - 1993
Jerry Hall, West Plains	1989 - 1995
Joseph Passanise, St. Louis - Student Member	1989 - 1990
State Commissioner of Elementary and Secondary Education - Ex Officio

Graduate School - Dr. Clifton C. Thompson, Interim Associate Vice President

West Plains Campus - Dr. Richard D. Brauhn, Dean

Office of Continuing Education - Dr. J. Ronald Fairbairn, Dean

ECONOMIC IMPACT STATEMENT

The University exerts a large influence on the Springfield-Greene County economy while providing instruction, research, and public service. With 17,000-plus students, 1,352 full-time faculty/staff employees, and a \$75 million budget, SMSU easily qualifies as one of the area's leading enterprises. An examination of spending originating from students, employees, and other groups, provides a means to measure the institution's local economic impact during 1986-87.

Faculty and staff spending is estimated to be over \$28,100 per capita, while students, on the average, spend approximately \$6,625 each. Parents of students spend another \$263 per student. In addition, expenditures by the institution for operations and capital projects, and by patrons of auxiliary activities, contribute \$25.6 million and \$5.7 million respectively.

Direct expenditures led to the generation of induced spending through a multiplying effect. In general, a multiplier of 2.26 was used to estimate the effect of most of the dollars spent. A multiplier of 3.41, however, was applied to monies used for university operations and capital expenditures. After calculating the effects of these multipliers, an estimated total economic impact of \$429 million resulted from the combination of direct and induced spending.

Student Information

HIGHLIGHTS

- * The headcount enrollment in fall 1989 on the Springfield campus reached an all-time high of 18,427 students. Graduate enrollment remained fairly stable, but the number of undergraduates increased by 1,300.
- * Full-time students represented 74 percent of all enrollees, and female students constituted 54 percent of the total enrollment.
- * Thirty-two Missouri counties were represented by over 100 students enrolled in fall 1989. In addition, 43 other states and 36 countries were accounted for in the student body.
- * Incidental fees for students enrolled for 12 or fewer hours increased by 1 percent in the 1989-90 academic year. The fee for enrolling for more than 12 credit hours was raised to \$50 per credit hour for Missouri residents.
- * Over \$26 million in financial aid was awarded to SMSU students in fiscal year 1989. Grants and scholarships accounted for almost half of the aid.
- * The College of Business Administration has more majors (4,030) than the other colleges, but the department with the most majors is Elementary and Secondary Education with 1,307.

ENROLLMENT BY STATE OF RESIDENCE, FALL 1989

LEGEND

Forty-four states are represented in the student body. Seven states, including Missouri, have 26 or more residents in attendance.

In addition, 106 foreign students from 36 countries are attending. These students come from all parts of the world with 50 from Asia, 16 from Africa, 4 from Australia/New Zealand, 11 from Europe, and 25 from North and South America. Cameroon has the largest representation with 14 students enrolled.

Degree Programs and Degrees Conferred

HIGHLIGHTS

- * The University offers baccalaureate degrees in 83 degree programs and master's degrees in 18 disciplines. An educational specialist degree is also offered in Educational Administration.
- * Majors may be selected from a total of 92 different degree programs. The University also provides pre-professional programs for students planning to enter fields such as dentistry, engineering, journalism, law, medicine, theology, and other professional areas.
- * The number of bachelor's, master's, and specialist degrees awarded increased over FY88, while the number of associate degrees completed decreased.
- * Almost 86 percent of all degrees awarded in fiscal year 1989 were at the baccalaureate level, and 56 percent of all degrees awarded were completed by females.

The University of
 North Carolina at
 Chapel Hill
 is a public research
 university. It is one of
 the largest and oldest
 universities in the
 United States.

DEGREES OF FACULTY AND PROFESSIONAL STAFF

Financial Resources

HIGHLIGHTS

- * In fiscal year 1989, state appropriations and payments constituted 46.5 percent of the \$95,223,240 in current funds revenues. Student fees accounted for \$23,799,081 or 25.0 percent of the revenues.
- * The largest expenditure classification in the current funds expenditures is instruction, which has been approximately forty percent of total expenditures for the past seven fiscal years.
- * Educational and general funds for fiscal year 1989 totaled \$77,007,167 with personal services consuming 67.4 percent of the total. Operating costs required 27.2 percent of the funds, and the remaining 5.4 percent was used for equipment purchases and maintenance.
- * The requested budget for FY91 is 19.8 percent above the University's budget for FY90.

EDUCATIONAL AND GENERAL FUNDS
BY EXPENDITURE CATEGORY

Facilities

HIGHLIGHTS

- * The Springfield campus contains 23 educational and general buildings and 12 auxiliary enterprises facilities. The most recent addition is Glass Hall, the new Business Administration building, which opened in spring, 1988.
- * The primary campus currently encompasses 163 acres. Of the total, 150 acres are contiguous; and the other 13 acres are comprised of adjacent properties.
- * Classroom space on the Springfield campus is utilized at a higher level during the mid-morning and early afternoon hours than the currently accepted standard for space utilization.
- * Student service activities claim 48.1 percent of the assignable square footage on the campus. Instructional and research activities are assigned 31.9 percent.
- * Twenty-two percent (3,722) of the students enrolled in fall 1989 are living in university housing. Almost three-fourths are freshmen.
- * The Meyer Library contains almost two million literary units in its collection including 1,109,997 books and government documents. The Library has one of the largest holdings of cartographic materials in Missouri.

LIBRARY FACTS

The SMSU Library system is comprised of the Duane G. Meyer Library, the Music Library, and the Greenwood Laboratory School Library. These three libraries have collections consisting of approximately 487,026 accessioned volumes; current subscriptions to 4,229 periodicals and newspapers; and extensive back files of journals and newspapers, many on microfilm, microcard, and microfiche. Total microform holdings amount to 737,866 units. Collections of audiovisual materials total over 18,078 titles.

In 1986, the NOTIS software package, designed to provide the basis for a totally integrated on-line catalog, circulation, and acquisition system was acquired. As of June, 1989, over 29 percent of all cataloging records were in the data base of the on-line catalog. As each new item is cataloged, its record is added automatically to this catalog. In addition to over 20 public terminals in the libraries, there is access from remote terminals via telephone lines from both on- and off-campus locations. When the system becomes fully operational, the processing of materials -- from acquisition to cataloging and circulation -- will take place using the on-line catalog.

Technological innovations and cooperative activities have enhanced the availability of and access to all types of material. Membership in the On-Line Computer Library Center, Inc. (OCLC), provides access to a bibliographic data base of over 22 million items used for cataloging, interlibrary loan, and reference. As a member of the Center for Research Libraries (CRL), the Libraries can borrow research materials that because of limited use or cost could not be purchased. Telefacsimile transmissions are used for document delivery between libraries and commercial suppliers of materials. Reciprocal borrowing agreements exist between the SMSU Libraries and 12 other academic libraries in the area, and with all state-supported institutions of higher education. Both on-line computer search services and compact disk (CD-ROM) search services are available. Five different CD-ROM products are available, including a full-text financial data base. A Macintosh computer lab is available for use by students, staff, and faculty. Ongoing developmental work is being performed on hypertext programs with library applications.

The Meyer Library has been a selective depository for U.S. Government publications since 1963. It is also a complete depository for Missouri state publications. The total number of state and federal documents exceeds 622,971. The map collection, containing maps, atlases, aerial photographs, and travel information is one of the largest repositories of cartographic materials in Missouri, with over 172,021 items.

A number of special collections are also housed in the Meyer Library. A curriculum laboratory features a children's literature collection, a textbook collection, a collection of curriculum guides, and special learning materials. The Lena Wills Genealogical Collection provides information of importance to Missouri genealogists. The William J. Jones collections of Rimbaud and Butor are internationally recognized; materials by and about the French poet, Jean Arthur Rimbaud, comprise the largest collection of this type in the United States.

**Includes \$185,102 for Educational Media expenditures

West Plains Campus

HIGHLIGHTS

- * During the fall semester 1989, 635 students are enrolled at the West Plains Campus.
- * Female students comprise 71 percent of the 1989 enrollment, and 52 percent of the enrollment are full-time students. The percentage of students attending full time has been increasing since 1985.
- * Thirteen counties in Missouri and eight other states are represented in the enrollment.
- * Instructional faculty number 48, 14 of whom are full time.
- * Starting fall, 1989, incidental fees for the West Plains Campus are lower than the Springfield Campus, in order to become more aligned with other two-year colleges across the state.

HISTORY AND ACCREDITATION

Campus History and Setting

SMSU - West Plains was established in 1963 and it has been a semiautonomous junior college within the commonwealth of Southwest Missouri State University since 1971. The college provides a two-year general education program that is fully integrated with the curriculum on the Springfield campus for purposes of transfer and baccalaureate study. The college also provides specialty and skills courses for which there is a demand, as well as courses commensurate with community needs and interests. Students may fulfill course requirements for several associate degree programs. The campus is comprised of nine buildings located on five acres in the community of West Plains.

West Plains is located 110 miles southeast of Springfield in the community of West Plains. The college regularly attracts students from a seven-county area of the southcentral Missouri Ozark region and from adjacent areas in north Arkansas.

Accreditation

West Plains has been accredited as a branch college of SMSU since 1971 by the North Central Association of Colleges and Secondary Schools. SMSU - West Plains is also a member of the American Association of Junior and Community Colleges and the Missouri Association of Junior and Community Colleges. The nursing program has full accreditation from the National League for Nursing.

Programs

Associate of Science Degree in Nursing

Associate of Arts Degree in General Studies

Associate of Applied Science in Medical Laboratory Technology

Continuing Education

Selected intersession and upper-level courses are offered through the University departments and the Continuing Education Office. Community-oriented continuing education courses are also offered at the West Plains Campus.

Alumni and Development

HIGHLIGHTS

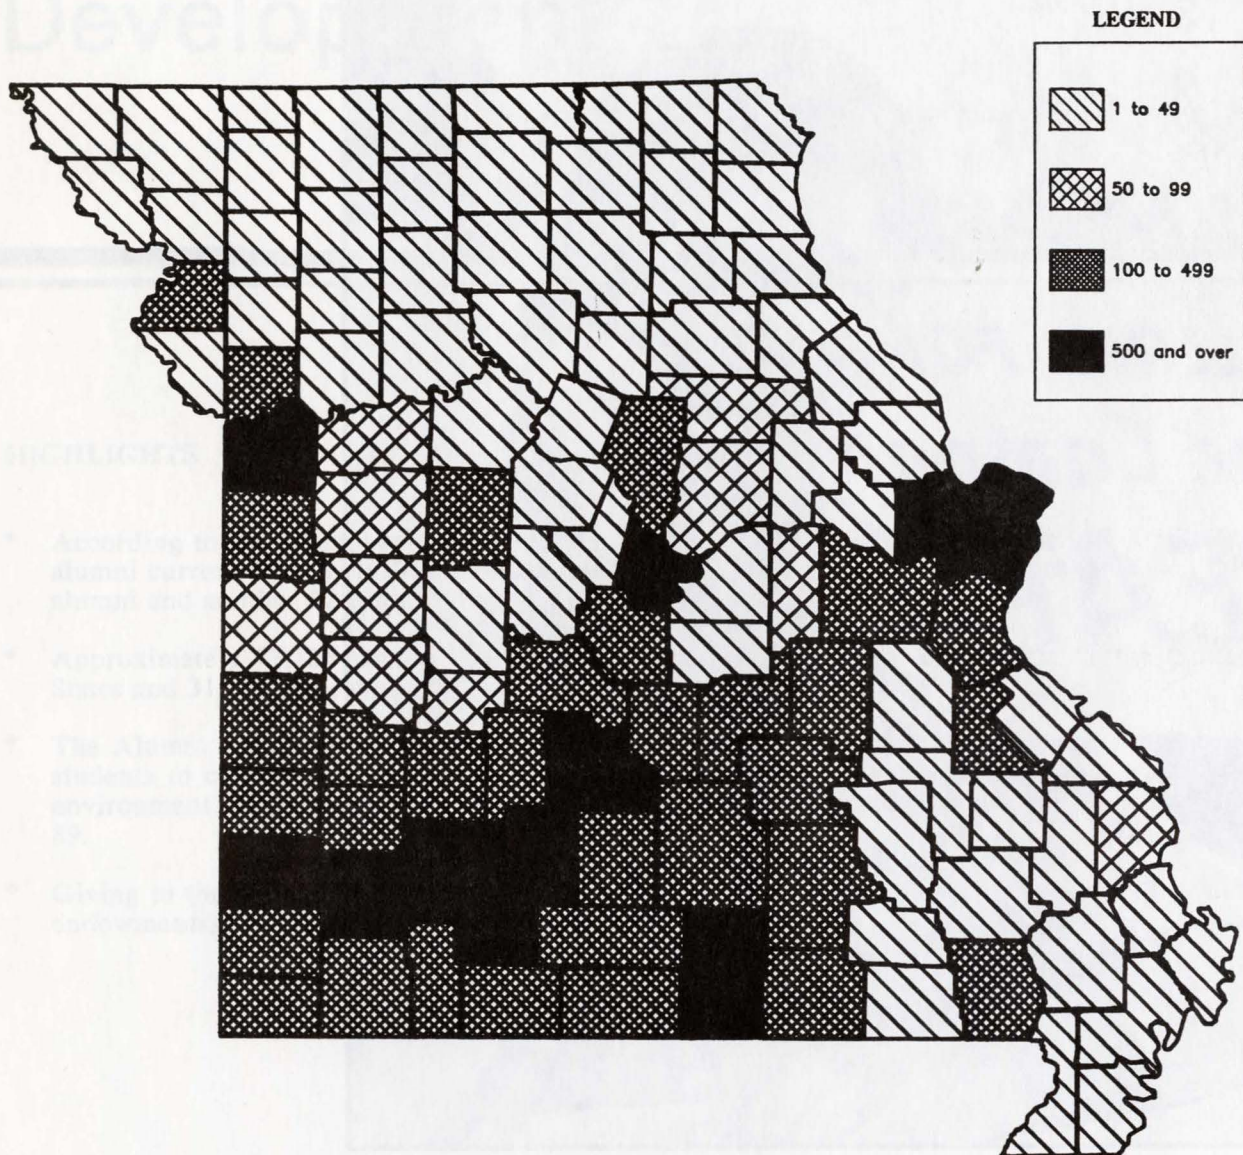

- * According to the latest records of the Office of Alumni and Development, over 47,000 SMSU alumni currently reside in Missouri, representing every county. Eleven counties have over 500 alumni and another 32 counties have between 100 and 500.
- * Approximately 13,700 alumni live outside Missouri and represent every state of the United States and 31 foreign countries.
- * The Alumni Association has developed programs and activities that allow alumni and former students to continue their identification with the University. These efforts have created an environment which caused over 4,900 alumni to contribute approximately \$1 million in 1988-89.
- * Giving to the University Foundation during 1988-89 totaled over \$2.9 million for student aid, endowments, capital projects, and other University programs.

SOUTHWEST MISSOURI STATE UNIVERSITY FOUNDATION

Formed in January 1981, the Southwest Missouri State University Foundation is a non-profit organization which has as its mission:

"To promote an environment for giving and therein seek, receive, manage, develop, and distribute resources in a manner appropriate to support programs of instruction, research, and public service of the University."

Thus, the Foundation is empowered to solicit and receive gifts and bequests, to accept trusts subject to the conditions imposed on them, and to hold, administer, manage, use or distribute gifts, bequests and trusts for the benefit of Southwest Missouri State University. The Foundation exists to benefit SMSU, its faculty and students, to improve its standards and potentialities as an institution of higher learning, and to promote the general welfare of the University.

The main emphasis of the Foundation is centered around the Greater SMSU Annual Fund, The Honor Clubs, The Bears Fund, and a planned and deferred giving program. The Annual Fund solicits gifts from faculty and staff, alumni, and friends of the institution through a campus campaign, a phone campaign, and direct mail. The Honor Clubs, which offer special recognition for individual giving, include:

- | | | |
|---------------------|---|---|
| The Founders Club | - | minimum of a \$10,000 outright gift over a ten-year period or \$25,000 deferred gift. |
| The Carrington Club | - | annual gifts of \$500 or more. |
| The 1905 Club | - | annual gifts of \$250 or more. |
| The Century Club | - | annual gifts of \$100 or more. |

The Bears Fund is the fund-raising program for men's and women's intercollegiate athletics. Planned and deferred giving programs offer educational seminars and mailings for alumni and interested friends of the University as well as providing donors opportunities to endow scholarships, grant bequests through their wills, establish life income gifts, and utilize other estate planning vehicles.

In fiscal year 1989, 9,299 donors made 11,325 outright gifts of cash and property totaling more than \$2.9 million. Deferred gift commitments made during the year exceeded \$2 million, bringing the total deferred gift commitments made to the University to more than \$4 million. Gift and pledge commitments to the Foundation since its formation in 1981 have exceeded \$20 million.

*University programs assisted through these gifts included various academic departments, research projects, radio and other public service programs, library acquisitions, and athletics.

Research Centers and Experiment Station

HIGHLIGHTS

- * The University currently maintains 11 on-campus centers for research and public service.
- * The University serves the state fruit growers through research performed at the State Fruit Experiment Station in Mountain Grove. The Experiment Station was assigned to the University on July 1, 1974, under the Omnibus State Reorganization Act.

The berries are small, round, and light-colored, growing in clusters on a bush. A hand is visible, holding one of the clusters. The background is dark and out of focus.

Center for Defense and Strategic Studies (1987)

The Center for Defense and Strategic Studies is a non-profit, non-partisan organization that provides research and analysis on defense and strategic issues. The Center was founded in 1987 and is located in Washington, D.C. The Center's research is based on a combination of academic research and practical experience. The Center's research is published in a variety of formats, including books, articles, and reports. The Center's research is also presented at conferences and seminars. The Center's research is highly respected and is widely cited in the media and in academic circles.

SOUTHWEST MISSOURI STATE UNIVERSITY CENTERS

Center for Archaeological Research (College of Humanities and Social Sciences, 1975)

The Center is designed to study, record, and share knowledge of past cultures. The information gained from archaeological research is then disseminated through a variety of scholarly outlets and educational programs.

Center for Assessment & Instructional Support (Reports to the Vice President for Academic Affairs, 1987)

The Center was created to oversee and coordinate the development of the University's new assessment program which is primarily designed to generate information that can be used to help evaluate the effectiveness of the University's many academic programs and services. Through a variety of techniques, including placement testing in the basic skills, the assessment of general education skills, the assessment of academic majors, and a comprehensive survey program, the University community should acquire insights into the University's strengths and weaknesses. When consistent shortcomings become apparent (i.e., when we discover that an important ability, skill, or piece of knowledge is not being acquired by our students), the Center will encourage departments to respond with appropriate program improvements.

The Center is also designed to assist faculty in their instructional activities. While the current emphasis is focused on sponsoring teaching enhancement workshops and seminars, in the future this function should expand to include support, resources, and assistance for those with teaching-related questions or needs.

Center for Business Research and Development (College of Business Administration, 1981)

The Center's primary function is to serve as a channel through which economic development and business-related needs can become known and met through the resources of the Center, the College of Business Administration, and SMSU, as well as other public and private sector associates with which the Center cooperates. The Center's objectives are (1) to stimulate new job creation; (2) retain and improve the quality of existing jobs; (3) foster an environment in which creativity, innovation and entrepreneurship is recognized and encouraged; and (4) commercialize and/or implement solutions to problems affecting or threatening the quality of life.

The Small Business Development Center provides general management and technical assistance to small businesses and to individuals considering going into business. Counseling is offered in strategic planning, market research, regulation and taxation, financing, cash flow analysis, business valuation, site selection, government procurement, exporting and other areas of assistance required to promote small business growth.

The Business Training and Professional Development Program provides seminars and short courses in the areas of management of other small business concerns. Professional development classes are offered for preparation for the Certified Public Accountant examination, Certified Professional Secretary examination, several insurance certifications, recertification of real estate licenses, and a Legal Assistant program.

Center for Defense and Strategic Studies (1987)

The Center's primary objective is to introduce Defense and Strategic Studies to undergraduate students and to provide professional graduate-level academic training for students planning careers in the field of national security policy, defense analysis, and arms control. Consequently, educational emphasis is placed on the practical analysis of U.S. policies, programs, and options, as well as on theoretical comprehension. Center objectives also include the research and analysis of timely and critical issues in national defense, the contribution to an informed public debate in a democracy, and the provision of academic and intellectual resources to concerned civic groups and organizations.

Center for Economic Research (College of Humanities and Social Sciences, 1971)

The Center serves as a depository of economic data relevant to the Ozarks region. It distributes that information to interested parties to encourage economic research and to stimulate interest in special projects.

Center for Gerontological Studies (College of Education and Psychology, 1978)

The Center is engaged in programs designed to define and to help meet the needs of aging persons in southwest Missouri. The programs provide educational opportunities, train professionals and paraprofessionals, identify service needs, and support research on aging.

Center for Ozarks Studies (College of Humanities and Social Sciences, 1975)

The Center is a multi-disciplinary research enterprise focusing on the Ozarks region for the purpose of promoting geographic/historic regional studies.

Center for Psycho-Educational Research and Service (College of Education and Psychology, 1984)

The Center provides research and public service support for the College of Education and Psychology. In addition, it serves as a coordinating agent for the Learning Diagnostic Clinic and the Weekend Intervention Program. The Clinic offers academic support services to help students achieve their academic goals. Strategies include tutoring, instruction in basic skills, diagnostic testing and evaluation, computer assisted instruction, and assistance with course selection. The Weekend Intervention Program offers help to people from the community who have been arrested for driving while intoxicated. The program brings together a group of psychologists who provide a weekend of intense education and counseling. The intent is to teach individuals how to assess the effects of alcohol in their lives.

Center for Research and Service (College of Health and Applied Sciences, 1984)

The Center provides administrative support for research and public service for the College of Health and Applied Sciences. It serves also as the coordinating agent for the following units within the College: the Agricultural Research and Demonstration Center, the Child Development Laboratory, the Equine Center, the Exercise Laboratory, the Industrial Productivity Center, and the clinics of Sports Medicine, Speech-Language-Hearing, and Nursing.

Center for Scientific Research and Service (College of Science and Mathematics, 1984)

The Center provides administrative support, research facilities, and professional expertise for research and public service activities in the areas of materials science, polymer synthesis, environmental studies, biotechnology, and chemical analysis.

Center for Social Research (College of Humanities & Social Sciences, 1989)

The Center for Social Research applies social science methods and data to a variety of issues of local, state, and national concern. Faculty in the Center pursue both academic and policy motivated research in an effort to improve both understanding and the ability to create effective policy.

The Center's mission is strongly rooted in education as well as research. Student workers are therefore involved at every stage of a research project under the close supervision of an interdisciplinary faculty.

SOUTHWEST MISSOURI STATE UNIVERSITY**EXPERIMENT STATION****HIGHLIGHTS**

- * The University serves the state fruit growers through research performed at the State Fruit Experiment Station.
- * The University's research programs on fruit crops are the most comprehensive in the state.
- * Information derived from research is disseminated through advisory programs to provide fruit growers and processors with the most advanced knowledge available for growing fruit and making wines and juices.
- * The six full-time research faculty have doctorates and four of the five professional staff have master's degrees.
- * Opportunities are available for students to work under the guidance of research faculty and staff on thesis research, special problems, and internships in the areas of horticulture, biology, chemistry, and food science.
- * Grants received for use in 1989-90 totaled \$212,832 with \$78,132 coming from the public sector for research, \$8,550 from private industry for research, and \$126,150 from the public sector for advisory programs.
- * The Station is located at Mountain Grove, 65 miles east of the Springfield campus. The 10-acre campus area includes laboratories, offices, and a library. The remaining 180 acres are devoted to orchards, vineyards, and other fruit plantings for research.
- * Established by the state in 1899, the Fruit Experiment Station is the oldest identifiable part of Southwest Missouri State University. The Experiment Station was assigned to the University on July 1, 1974, under the Omnibus State Reorganization Act.

State Fruit Experiment Station (College of Health and Applied Sciences, 1974)

The State Fruit Experiment Station, established by a legislative act in 1899, is the oldest identifiable segment of Southwest Missouri State University. Until 1974, it operated as a state agency under a board of trustees appointed by the Governor. As a result of the Omnibus State Reorganization Act of 1974, administrative responsibility for the Station was given to the Board of Regents of the University. In 1984, the Station was assigned departmental status in the College of Health and Applied Sciences as the result of the reorganization of the University. The Station has a legislative mandate to generate knowledge through research, and to disseminate this knowledge so as to support and expand the productivity and profitability of the Missouri fruit industry.

The professional staff includes a director and five other research faculty trained at the doctoral level and four members trained at the master's level. In addition to carrying out research and advisory programs, professional staff members guide graduate students in their thesis research and supervise undergraduates on internships from other departments.

The State Fruit Experiment Station is located on 190 acres on the outskirts of Mountain Grove, 65 miles east of the Springfield campus. The 10-acre campus area includes: Shepard Hall which houses laboratory facilities, offices, and the Paul Evans Library of Fruit Science; Faurot Hall, the original administration and laboratory building; a fruit processing laboratory; greenhouses; and several other buildings. The remaining 180 acres are devoted to fruit research plantings, a U.S. Weather Bureau substation, equipment storage buildings, and a shop.

Research is carried on in pomology, enology, viticulture, plant pathology, entomology, tissue culture, and plant physiology. The fruit crops under investigation include apples, grapes, blueberries, peaches, strawberries, blackberries, and raspberries, as well as species of lesser economic importance. Information derived from the Station's research is disseminated through advisory programs to fruit growers and processors throughout Missouri.

The Station is the site of extensive testing of new fruit varieties and selections for their adaptability to Missouri soil and climate and resistance to diseases. Research on the culture of fruit crops is carried out on nutrient and water requirements, pruning and training systems, growth regulators, and rootstocks. New chemical compounds are evaluated for their effectiveness in controlling diseases, insects, and weeds. Plant pathogens and insect pests are studied for clues which may help in reducing their damage to fruit crops.

Grapes and blueberries are two crops of particular interest at the State Fruit Experiment Station. Located in a natural grape environment, the Station has been the site of extensive grape experimentation since 1900, including some of the first experiments in the United States on grafting rootstocks on American grapes. The Station's research helped to provide the basis for large acreages of the Concord and Catawba varieties in the state. Today, special emphasis is given to research on the French hybrid grape varieties and their wines. Blueberry production is one of the newest successful fruit industries in Missouri. Blueberry research at the Station began in 1975 and has helped growers meet the specialized needs of blueberry production under Missouri conditions.

It is the policy of Southwest Missouri State University not to discriminate on the basis of age, ancestry, color, creed, handicap, marital or parental status, national origin, participation in constitutionally protected activities, political affiliation or beliefs, race, religion (belief or non-belief), sex, or disabled and/or Vietnam Era veteran status in its activities, programs, benefits, services, or aids. Following admission, if you would like any information regarding services available to handicapped students, contact the Affirmative Action Officer.

Inquiries regarding the SMSU Affirmative Action Program or compliance with Title VI, Title IX, or Section 504 may be addressed to the Affirmative Action Officer, 209 Carrington Hall, 901 S. National, Springfield, MO 65804, (417)836-5274.
